The paste composed essentially of portland cement and water coats the surface of the fine small and coarse larger aggregates. Through a series of chemical reactions called hydration the paste hardens and gains strength to form the rock-like mass known as concrete. PDF CE6002 Concrete Technology Lecture Notes Books Download CE6002 Concrete Technology Books Lecture Notes Syllabus Part A 2 marks with answers CE6002 Concrete Technology Important Part B 16 marks Questions PDF Books Question Bank with answers Key CE6002 Concrete Technology Syllabus amp Anna University CE6002 Concrete Technology Question Papers Collection Concrete Technology Archives Bright Hub Engineering Concrete is a basic building material needed for many Civil Engineering projects. There is a great deal to this subject from the types of different concrete mixtures to curing concrete methods of recycling it and more. Read articles on concrete technology how it's made what types are in use today and more.
