

Concurrent And Real Time Systems The Csp Approach

Concurrent And Real Time Systems The Csp Approach **FREE* concurrent and real time systems the csp approach* processes are combined to form a larger system, that system is again a self-contained entity with a particular interface—a (larger) process. This is the framework provided by CSP for analysing the world. Example 1.1.1 The kitchen of a fast-food outlet might be considered as a process. Its interface will include the door through which the ingredients come in, the counter where the cooked
